

SOLIDARITY.

In Michigan, we value our families, our freedom, and hard work. Working people are the backbone of our state, and we deserve the freedom to negotiate together for a fair return on our work so we can provide a better life for our families.

To advocate for pro-labor policies in state government, we developed a Policy Platform that outlined the top economic and legislative priorities of the Michigan AFL-CIO and our 59 affiliates, representing more than one million active and retired union members across Michigan.

By championing these policies and educating members on lawmakers records, we can better hold our elected officials accountable. This scorecard is designed to give you the information to make your own decision on which elected people have working people's backs.

Here's how you can help:

1

Talk.

Take a minute to say thanks - or to say no thanks - to your legislators about their score.

2

Share.

Share this scorecard with your friends, family, and social media, so they know the score of their elected officials too.

3

Join.

Our mission relies on the participation of people like you. Consider joining our advocacy work by becoming a member of Michigan AFL-CIO Advocates at www.miaflcio.org/advocates

BUILDING A LABOR MAJORITY

Because the Michigan AFL-CIO is both political and nonpartisan, our goal is to build a pro-labor majority of state lawmakers who support working families and our ability to earn a fair return for our work.

LEGISLATION

HB 4722 - Prevents local governments from short-term zoning rentals, increasing housing costs for working families at a time when housing costs are already on the rise.

HB 4434 - This bill would have put an early end to federal unemployment benefits for Michigan residents, undermining the ability of families to meet their basic needs during the pandemic.

HB 4501 - Would require businesses to be reimbursed for MiOSHA fines they received for COVID violations under executive orders, giving employers a free pass when they put a worker's health and safety at risk.

HB 4293 - Allows school districts to use non-certified staff as substitute teachers and prohibits this decision from being a subject of collective bargaining.

HB 4771 - Clarifies civil penalty assessments for asbestos-related violations under the Michigan Occupational Safety and Health Act, meaning bad actors are held accountable for endangering the health of their workers.

SB 687 - Legislation designed to bypass the constitutional amendment prohibiting the use of public money to aid nonpublic schools.

SENATE FLOOR VOTES

LEGISLATION

2019-2020

HB 4042 - Would add Michigan to the national Nurse Licensure Compact. Doing so would create inconsistent standards and mean Michigan would lose control over standards nurses have to meet to practice in our state. It would also make it more difficult to track problem nurses.

SB 294 - This legislation sought to weaken the standards of the entire state construction code to create an exemption for a single construction project. These standards are in place to protect those who build and use these structures.

SB 858 - Would have curbed the ability of the Governor to respond to emergency situations, including hindering the ability to extend protections to working people and their families in the face of a global pandemic.

SB 899 - Grants broad immunity for hospitals and healthcare providers during a state of emergency. The legislation would leave workers with little to no recourse when harmed because of dangerous actions or inactions of hospitals, except in the most egregious situations.

2021-2022

HB 4434 - This bill would have put an early end to federal unemployment benefits for Michigan residents, undermining the ability of families to meet their basic needs during the pandemic.

HB 4501 - Would require businesses to be reimbursed for MiOSHA fines they received Covid violations under executive orders, giving employers a free pass when they put a worker's health and safety at risk.

ONWARD.

For far too long, the rules of our economy have been rigged by some elected officials in Lansing and Washington to favor their wealthy corporate donors while regular working families struggle to get by. This needs to change. And that's why we as a state labor federation are committed to electing candidates up and down the ballot who will have our backs and work to build a better Michigan for everyone.

Our vision for Michigan is pretty simple: we need to build an economy where all working people have the freedom to negotiate together for a fair return on their work - with good jobs, strong benefits, a secure retirement, and more time to be with family.
